SOUNDEX

The Soundex is a "short cut" to the census record, listing names phonetically rather than alphabetically, using a special code. The wonderful thing about using phonetics is that it brings the similar name spellings all together. For example, Snyder, Schneider, and Sneider will all be located under the same code.

The 1880 Soundex lists only families with children ages ten and younger. The 1900 Soundex, however, lists all families.

THE SOUNDEX CODE

Code	Key letter/equivalents
1	b, p, f, v
2	c, s, k, g, j, q, x, z
3	d, t
4	l
5	m, n
6	r

Letters a, e, i, o, u, y, w, and h are NOT CODED.
First letter of the surname is NOT CODED.

Each Soundex code consists of one letter followed by three numbers. Let's try to code the name Pennington:

- | | |
|--|------------|
| 1) Write out the surname. | Pennington |
| 2) The first letter of the surname begins the code. In this case, the P. | P |
| 3) The E is not coded. | |
| 4) The two Ns are counted as one. The code for N is 5. | P-5 |
| 5) The I is not coded. | |
| 6) The N is coded as a 5. | P-55 |
| 7) The G is coded as a 2. | P-552 |

And there you have your Soundex code for the name Pennington - P-552. The rest of the name is not coded because only the one letter and three numbers are needed to set the code.

7a

But what happens if a short name is being coded - for example, Bahr?

- | | |
|--|-------|
| 1) Write out the surname. | Bahr |
| 2) The first letter of the surname begins the code. | B |
| 3) The A is not coded. | |
| 4) The H is not coded. | |
| 5) The R is coded as a 6. | B-6 |
| 6) The remainder of the code is completed using zeros. | B-600 |

The code for Bahr is B-600.

The next step is to pull the microfilm which contains the code number. On the microfilm, go to where that particular code begins. The cards will then be in alphabetical order by the first name of the head of the household, even if several surnames have the same code number. For example:

P-552	Pennington, Fred
P-552	Penningroth, Fred
P-552	Peninoiz, Fredrick

White divider cards may show mixed codes, P-540 through P-580 for example. This group will include P-541, P-542, P-543, etc., but will still be alphabetized by the first names.

Once you get the microfilm of the Soundex cards, this is what you may expect to find:

① →		Soundex No. _____ STATE _____ Head of Family _____ VOL. _____ E.D. _____ SHEET _____ LINE _____ Color _____ Month _____ Year _____ Age _____ Birthplace _____ Citizenship _____ County _____ HCD _____ City _____ Street _____ House No. _____ <table border="1"><thead><tr><th>NAME</th><th>Rel.</th><th>Birth No.</th><th>Yr.</th><th>Age</th><th>Birth-place</th><th>Cit.</th></tr></thead><tbody><tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr><tr><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td><td> </td></tr></tbody></table> _____ (Year) U.S. CENSUS INDEX										NAME	Rel.	Birth No.	Yr.	Age	Birth-place	Cit.																																				← ②									
NAME	Rel.	Birth No.	Yr.	Age	Birth-place	Cit.																																																									

- 1) Gives the code number - for example, P-552.
- 2) Gives a direct reference to the census record.

This card is just a summary of the census record. You still need to check the census record for complete information.

Sheets of these cards (four on a page) may be purchased at the IGS Library to assist you in making your research notes.

Handwritten text at the top of the page, possibly a title or header, which is mostly illegible due to fading.

The main body of the page contains several paragraphs of handwritten text, organized into approximately six distinct sections. Each section is separated by a horizontal line. The handwriting is cursive and somewhat faded, making it difficult to read. The text appears to be a detailed account or report, possibly related to a scientific or historical study. The sections are roughly as follows:

- Section 1: A short paragraph at the top of the main body.
- Section 2: A paragraph starting with a small indentation.
- Section 3: A paragraph with some internal structure, possibly a list or sub-points.
- Section 4: A paragraph that seems to describe a process or method.
- Section 5: A paragraph that appears to be a conclusion or summary.
- Section 6: A final paragraph at the bottom of the page.

FT-CSLOG

of

KEY

1887

A red line graph on a light blue grid. The line starts at the origin (0,0) and trends upwards to the right, ending at approximately (10, 10). The line is slightly curved, showing an increasing rate of growth.

A red line graph on a grid. The x-axis is labeled 'Time' and has a vertical line in the middle. The y-axis is labeled 'Value' and has a horizontal line in the middle. The red line starts at the origin (0,0), rises to a peak above the horizontal line in the first half, and then falls back down to the horizontal line at the end of the second half.
